Subject: CRC Numbers

Mike,

Working with the numbers from Craig's list, the updates from your walk through and the various email reports coming in, here's what I have:

Our total capacity:	1,556 l.f.
Leaving bottom shelves empty our capacity is:	1,328 l.f.
Total l.f. projected to be sent to CRC:	1,564 l.f.
Shortage:	-236 l.f.

There are a number of questions that I have:

- General question – are we only taking collections that are > # of l.f.?
- OCE/OAWT – OCE has 83' of 207a for ARCU. Are these part of Dave Bray's 420' of Source files?
- OCE – NCU has 24' of 211a/1044d files, are these still coming to the CRC?
- OMP – GAU has 33' of 001b/1036c files, are these still coming to the CRC?
- OMP – IOU has 14' of smaller collections listed, are these still coming to the CRC?
- OMP – IO has 4.5' of 082a/1016c (Audit Files), are these still coming to the CRC?
- ORC has 0.5' of 025/1036a files, are these still coming to the CRC?
- OWW – DWU has the following,(are these still coming to the CRC?):
 - 28' of 212a/1023a
 - 10' of 149/1023a
 - 11' of 207a/1044c
 - 19' of smaller collections
- OWW – GPU has 7' of 232a/1003a, are these still coming to the CRC?
- OWW – WQSU, should we reserve the 38' of 204a1/1023a they originally reported?
- OWW – WU, should we reserve the 17.5' of 213a1/1035a and the 7' of smaller collections? I've included the 3.75' that were emailed last week

- OWW – NPU, the most current # from Hyon are 22' + 40' + 43' = 105' but Gail's numbers are 172' from 7/10/14 email
- OAWT – RCRA has 1.5' of 204a1/1023a, are these still coming to the CRC?
- OAWT – TATU has the following, are these still coming to the CRC?:
 - 1.5' of 1003b
 - 9' of 1003b
 - 27' of 216a1/1023a
- OAWT – PAMMU had 30' of various collections, are these being replaced by Amberet's 50' of files or is this in addition? I currently have calculated them as "replacing" the 30' since that's the latest from them.

As you suggested in your email from yesterday, I'll review the numbers and draw up different plans to see how we can fit. After we finalize the version, I'll map them, but for Saturday, Grants will start on the South Spacesaver as planned and ARU will start and remain on the South Spacesaver (not split between West and South).

Thank you,

Joyce Aoyama
